

DESIGN YOUR OWN TABLE TOP LIGHTING
WITH THE LAUNCH OF
LAMP DESIGN WIZARD™
FROM
RESTAURLIGHTS.COM

NIGHTCLUB & BAR SHOW
LAS VEGAS, MARCH 4-7 2007 -- BOOTH # 4513

Fort Lauderdale, FL: March 4th, 2007: RestaurantLights.com, a wholly owned division of Tropical Lights, Inc. and the world's largest on-line distributor of table top lighting, is pleased to announce the launch of *LAMP DESIGN WIZARD™*. *LAMP DESIGN WIZARD™* is a next generation, on-line, interactive design tool that enables Restaurateurs, F&B Managers, Architects and Interior/Restaurant Designers the ability to design and visualize the perfect, customized style and look for their venue.

President, Jay Cullimore comments, "We have designed this unique interactive *LAMP DESIGN WIZARD™* with designers and restaurateurs in mind. It is difficult to visualize the end result when selecting lighting options. Using our *LAMP DESIGN WIZARD™* the days of imagining are over as you can see on screen exactly what you have chosen. For the first time, architects and designers now have a tool to assist with their presentations".

The *LAMP DESIGN WIZARD™* is very simple to use, with just three easy steps needed to obtain a price. With over 600 lamp styles, the options are limitless. *LAMP DESIGN WIZARD™* makes it easy to choose the right holder, base, globe or shade by just the click of a button. You simply select a lamp base and globe or shade to view the design together on screen. Then select your lighting source, using either standard fuel cells, or electronic options, such as, battery operated or rechargeable candles. *LAMP DESIGN WIZARD™* automatically calculates your complete cost per lamp. Simply click on a new base, globe or lighting source to change your design, over and over again, until you find the right combination.

As you would expect from the world's largest, value added, lighting distributor, if the standard lamp designs do not meet your requirements, RestaurantLights.com's in-house design engineers, can make virtually any design a reality.

To view *LAMP DESIGN WIZARD™*, click onto www.restaurantlights.com or check out our booth (No: 4513) at the show.

NOTE TO EDITOR

Tropical Lights, Inc., headquartered in Fort Lauderdale, Florida, is the parent company of RestaurantLights.com and MoodLyte Technologies. RestaurantLights.com provides worldwide distribution of tabletop and architectural lighting products, making it the complete one-stop shop for commercial lighting for Bars, Restaurants, Hospitality, Nightclubs, Casinos, Cruise Lines, Event Facilities, Theme Parks, gifting and general Retail.

Today, Tropical Lights, Inc., through RestaurantLights.com has become the world's largest on-line tabletop lighting distributor. Tropical Lights, Inc., has four different distribution outlets and brands, namely RestaurantLights.com, eOilCandles.com for the consumer, Tropical Lights™ brand Candle Oils and liquid products and MoodLyte™ Technologies, the electronic lighting manufacturing division.

Tropical Lights, Inc. has a patent pending for: FlickerCell™ and FlickerCell™ Remote. FlickerCell™ is a reusable, battery operated LED candle cell that flickers like a real candle. Its unique patent pending shape fits most lamps and replaces traditional wax candles or liquid fuel cells, safely and more cost effectively.

Tropical Lights, Inc., through its divisions, has a worldwide network of distribution and OEM partners.
